

تلتصق هنا اللاصقة الحاملة للإسم واللقب	مناظرة الكفاءة لأستاذية التعليم الثانوي - دورة 2009 -		الجمهورية التونسية وزارة التربية والتكوين ◆◆◆
	المدة ساعة	المادة : الانجليزية	
	Epreuve A		

ملاحظات :

(1) يتضمن الاختبار :

- ثلاث أوراق A3 خاصة بالأسئلة مرقمة من 1 إلى 10

- ورقة واحدة 4A خاصة بالإجابة

(2) يجب التأكد من التطابق بين :

\* أوراق الأسئلة Epreuve A وورقة الإجابة Epreuve A

\* أوراق الأسئلة Epreuve B وورقة الإجابة Epreuve B

(3) يحتوي الاختبار على 100 سؤال متعدد الأجوبة (QCM).

(4) كل سؤال يحتمل إجابة واحدة

تعليمات :

- (1) تثبت اللاصقة الحاوية للرمز Code à Barres في المكان المخصص لها على ورقة الإجابة (الركن الأيمن) في وسط الإطار المحدد. وضع اللاصقة خارج الإطار يؤدي إلى إلغاء الإجابة.
- (2) تثبت اللاصقة الحاملة للإسم واللقب في المكان المخصص لها بالصفحة الأولى (الركن الأيسر) من هذه الورقة.

(3) لا تُسلم إلا ورقة إجابة واحدة لكل مترشح ويستحسن الإجابة على ورقة الأسئلة قبل نقل العلامات على ورقة الإجابة.

(4) يملأ المربع أو المربعات الخاصة بالإجابات الصحيحة بالقلم الأزرق أو الأسود على النحو

التالي :

- (5) يُستعمل القلم الجاف (BIC) الأسود أو الأزرق دون سواهم
- (6) استعمال الماحي (BLANCO) و التشطيب أو طي الورقة تؤدي إلى إلغاء الإجابة
- (7) تُرجع ورقة الإجابة وأوراق الأسئلة.

Choose the correct answer and mark it on your answer sheet as indicated on the cover page.

Q1. The greater an object's mass, the more difficult it is \_\_\_\_\_

A. to speed it up or slow it down	B. it speeds up or slows down	C. that speeding it up or slowing it down	D. than speeding up or slowing down
-----------------------------------	-------------------------------	---	-------------------------------------

Q2. The grape is the \_\_\_\_\_, juicy fruit of a woody vine.

A. skin	B. which is smooth	C. smooth skin	D. smooth-skinned
---------	--------------------	----------------	-------------------

Q3. Congress chartered the first Bank of the United States in 1791 to engage in general commercial banking and \_\_\_\_\_ as a fiscal agent of the federal government.

A. to act	B. acting	C. that has acted	D. having acted

A. what has saved	B. which saved	C. which has saved	D. who saves
-------------------	----------------	--------------------	--------------

Q9. Before every presidential election in the United States, the statisticians try to guess the proportion of the population that \_\_\_\_\_ for each candidate.

A. are voted	B. voting	C. to be voted	D. will vote
--------------	-----------	----------------	--------------

Q10. The decimal numeral system is one of the \_\_\_\_\_ ways of expressing numbers.

A. useful most world's	B. world's most useful	C. useful world's most	D. most world's useful
------------------------	------------------------	------------------------	------------------------

Q11. Nebraska has floods in some years, \_\_\_\_\_

A. in others droughts	B. droughts are others	C. while other droughts	D. others in drought
-----------------------	------------------------	-------------------------	----------------------

Q12. \_\_\_\_\_ left before the deadline, it doesn't seem likely that John will accomplish the job.

- |                               |                       |                       |                           |
|-------------------------------|-----------------------|-----------------------|---------------------------|
| A. Although such a short time | B. It is such a short | C. With so short time | D. With such a short time |
|-------------------------------|-----------------------|-----------------------|---------------------------|

Q13. At present production levels, \_\_\_\_\_ deposits of bauxite can provide the world with aluminum for hundreds of years.

- |          |              |                   |                  |
|----------|--------------|-------------------|------------------|
| A. known | B. known are | C. they are known | D. what is known |
|----------|--------------|-------------------|------------------|

Q14. Coinciding with the development of jazz in New Orleans in the 1920's \_\_\_\_\_ in blues music.

- |                                    |                                |                                |                         |
|------------------------------------|--------------------------------|--------------------------------|-------------------------|
| A. was one of the greatest periods | B. one of the greatest periods | C. was of the greatest periods | D. the greatest periods |
|------------------------------------|--------------------------------|--------------------------------|-------------------------|

Q15. Despite its wide range of styles and instrumentation, country music has certain common features \_\_\_\_\_ its own special character.

- |                 |                 |              |                     |
|-----------------|-----------------|--------------|---------------------|
| A. give it that | B. that give it | C. give that | D. that gives it to |
|-----------------|-----------------|--------------|---------------------|

Q16. \_\_\_\_\_ around stones that are sun warmed, even the smallest of stones creates tiny currents of warm air.

- |                 |                       |                       |                       |
|-----------------|-----------------------|-----------------------|-----------------------|
| A. The cool air | B. If the air is cool | C. That the air cools | D. The cooler the air |
|-----------------|-----------------------|-----------------------|-----------------------|

Q17. This information \_\_\_\_\_ to a great many people.

- |                            |                         |                                 |                      |
|----------------------------|-------------------------|---------------------------------|----------------------|
| A. was proved to be useful | B. has proved it useful | C. has been proved to be useful | D. has proved useful |
|----------------------------|-------------------------|---------------------------------|----------------------|

Q18. The closer to one of the Earth's poles, the greater \_\_\_\_\_ gravitational force.

- |       |        |        |           |
|-------|--------|--------|-----------|
| A. is | B. the | C. has | D. it has |
|-------|--------|--------|-----------|

Q19. The flamingo uses its bill \_\_\_\_\_ feeding to filter mud and water from the tiny plants and animals that it finds in shallow ponds.

- |         |       |               |        |
|---------|-------|---------------|--------|
| A. when | B. is | C. that it is | D. was |
|---------|-------|---------------|--------|

Q20. The amount of lapsed time between the thunder and lightening can be used to determine \_\_\_\_\_

- |  |  |  |  |
|--|--|--|--|
| A. how the thunder and lightening are far away | B. how far away the thunder and lightening are | C. how far away are the thunder and lightening | D. the thunder and lightening are how far away |
|--|--|--|--|

Q21. The application of electronic controls made \_\_\_\_\_ by the microprocessor and computer storage have multiplied the uses of the modern typewriter.

- |                |             |                   |                |
|----------------|-------------|-------------------|----------------|
| A. it possible | B. possible | C. it is possible | D. possibility |
|----------------|-------------|-------------------|----------------|

Q22. After the great blizzard of 1988 in the northeastern United States, it took some \_\_\_\_\_ the \_\_\_\_\_ from their homes.

- |                                  |                                  |                                  |                                  |
|----------------------------------|----------------------------------|----------------------------------|----------------------------------|
| A. days to shovel people several | B. people several days to shovel | C. several days people to shovel | D. people several days to shovel |
|----------------------------------|----------------------------------|----------------------------------|----------------------------------|

Q23. The production of tin ore in the United States is relatively insignificant, \_\_\_\_\_ less than \_\_\_\_\_ tons annually.

- |              |                  |                 |                  |
|--------------|------------------|-----------------|------------------|
| A. amount to | B. in the amount | C. amount to it | D. to the amount |
|--------------|------------------|-----------------|------------------|

Q24. Not only \_\_\_\_\_ in the field of psychology but animal behavior is examined as well.

- |                              |                              |                              |                              |
|------------------------------|------------------------------|------------------------------|------------------------------|
| A. human behavior is studied | B. is human behavior studied | C. is studied human behavior | D. human behavior is studied |
|------------------------------|------------------------------|------------------------------|------------------------------|

Q25. All steam engines work for the same reason : steam occupies more than 1,700 times \_\_\_\_\_ water from which it comes.

- |                            |                      |                          |                     |
|----------------------------|----------------------|--------------------------|---------------------|
| A. of the space of much of | B. much of the space | C. with as much space as | D. as much space as |
|----------------------------|----------------------|--------------------------|---------------------|

Q26. The store \_\_\_\_\_

- |   |   |   |  |
|---|---|---|--|
| A. that had the recently big sale went bankrupt | B. that recently had the big sale went bankrupt | C. that had the big recently sale went bankrupt | D. that had the big sale went bankrupt |
|---|---|---|--|

Q27. Farmers grow popcorn in much the same way \_\_\_\_\_ field corn, except that the rows are planted together.

- |                   |              |                 |                 |
|-------------------|--------------|-----------------|-----------------|
| A. that they grow | B. that grow | C. they grow it | D. do they grow |
|-------------------|--------------|-----------------|-----------------|

Q28. A semiconductor is a substance that seldom conducts electricity, but \_\_\_\_\_ under circumstances.

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| A. so can do | B. do so can | C. can do so | D. so do can |
|--------------|--------------|--------------|--------------|

Q29. Among the giants of the sea \_\_\_\_\_, which may weigh up to 1,000 pounds.

- |         |             |                   |                |
|---------|-------------|-------------------|----------------|
| A. tuna | B. the tuna | C. being the tuna | D. is the tuna |
|---------|-------------|-------------------|----------------|

Q30. \_\_\_\_\_ one or more units of living substance called protoplasm.

- |                                 |   |                                    |                                       |
|---------------------------------|---|------------------------------------|---------------------------------------|
| A. All living things consist of | B. Although all living things that consist of | C. All living things consisting of | D. In all living things consisting of |
|---------------------------------|---|------------------------------------|---------------------------------------|

Q31. Physicists sought ways \_\_\_\_\_ many others to emit light, amplifying it to much higher power.

- |   |                                     |  |  |
|---|-------------------------------------|--|--|
| A. how one atom or molecule could stimulate | B. one atom or molecule stimulating | C. stimulating one atom or molecule by | D. by which one atom or molecule stimulate |
|---|-------------------------------------|--|--|

Q32. Founded around 1075, the Acoma pueblo is considered ..... settlement in the United States.

A. the continuously occupied oldest	B. occupied continuously the oldest	C. the oldest occupied continuously	D. continuously the oldest occupied
-------------------------------------	-------------------------------------	-------------------------------------	-------------------------------------

Q33. Jacobson is often referred to ..... at the factory.

A. as the best engineer	B. be the best engineer	C. by the president to be the best engineer	D. as being the best engineer
-------------------------	-------------------------	---	-------------------------------

Q34. Until the ninth century, written words were not actually separated, ..... in some literary writing, dots or points were used to indicate divisions.

A. in spite of	B. contrary	C. contrast to	D. but
----------------	-------------	----------------	--------

A. was	B. were	C. who was	D. who were
--------	---------	------------	-------------

Q36. Why did the Galapagos Islands have so many finches, ..... a different kind of beak suited to its special feeding habits?

A. each has	B. with each	C. each with	D. with which
-------------	--------------	--------------	---------------

Q37. A newspaper's political cartoons ..... capsule versions of editorial opinion.

A. serve as	B. serve	C. in serving	D. be served
-------------	----------	---------------	--------------

Q38. .... west of the Rocky Mountains,

A. Tornadoes almost occur never	B. Tornadoes never almost occur	C. Never tornadoes almost occur	D. Tornadoes almost never occur
---------------------------------	---------------------------------	---------------------------------	---------------------------------

Q39. The clay burial vessels from the early Hopewell culture of North America are decorated with zigzag, grooved, and .....

A. geometrically designed	B. designs geometric are	C. geometric designs	D. geometry designed
---------------------------	--------------------------	----------------------	----------------------

Q40. .... the surface of metal, but also weakens it.

A. Not only does rust corrode	B. Not only rust corrode	C. Rust, which not only corrode	D. Rust corrodes not only
-------------------------------	--------------------------	---------------------------------	---------------------------

Q41. All marble is composed of crystals of the minerals calcite or dolomite, ..... are perfectly white.

A. when, pure which	B. when, which pure	C. which, pure when	D. which, when pure
---------------------	---------------------	---------------------	---------------------

Q42. A body weighs ..... from the surface of the Earth.

A. less the farther it gets	B. the farther it gets, the less	C. less than it gets farther	D. less than it, the farther it gets
-----------------------------	----------------------------------	------------------------------	--------------------------------------

Q43. When a bacterium becomes too large, it splits in half and forms two new bacteria, ..... its own cell wall and protoplasm.

- A. each has      B. with each      C. has each      D. each with

Q44. The photographs of Mars taken by satellite are ..... than those taken from the Earth.

- A. clearest      B. the clearest      C. much clearer      D. more clearer

Q45. Our friends are expected to assume the burden of their own defense, ..... they are competent to do.

- A. which we are certain      B. that we are certain of      C. of which we are sure      D. for which we are sure

Q46. I have written about the change in the social system ..... to promote happiness.

- A. to require      B. requiring      C. to be required      D. required

Q47. .... that the formation of the sun, the planets, and other stars began with the condensation of an interstellar gas cloud.

- A. Believing      B. To believe      C. The belief      D. It is believed

Q48. The art students were enthralled by the sheer beauty of the portrait ..... before them.

- A. which hang      B. which has hung      C. by that hung      D. which hung

Q49. Where to find him and how to find him ..... to us.

- A. is not known      B. not known      C. has not known      D. (are not known

Q50. After careful consideration and planning, he was determined .....

- A. that the merger should go      B. to go on merging      C. to start merging      D. to go ahead with the merger

Q51. Much of the precipitation that falls on the earth ..... by plants

- A. are absorbed      B. absorbed      C. which is absorbed      D. is absorbed

Q52. Multicolored woodcuts must be printed with as many blocks as ..... colors in the composition.

- A. there are      B. many      C. some of      D. it is

Q53. .... in science was important for Faraday

- A. Children that were interested      B. That interested children      C. That children should be interested      D. That interested children

Q54. Despite recent attempts to prove ..... did indeed reach the North Pole in 1909, the evidence still remains questionable.

- A. What Robert Peary      B. That Robert Peary      C. Robert Peary, who      D. Robert Peary was

X X

Q55. \_\_\_\_\_ so incredible is that it can grow 385 miles of roots in four months, or about 3 miles in a day.

- |                             |                             |                  |                            |
|-----------------------------|-----------------------------|------------------|----------------------------|
| A. That makes the rye plant | B. What makes the rye plant | C. The rye plant | D. The rye plant which was |
|-----------------------------|-----------------------------|------------------|----------------------------|

Q56. \_\_\_\_\_ was lowered to the sea bed in a glass container to make observation is debated.

- |                            |                                |                        |                             |
|----------------------------|--------------------------------|------------------------|-----------------------------|
| A. Alexander the Great who | B. Whether Alexander the Great | C. Alexander the Great | D. What Alexander the great |
|----------------------------|--------------------------------|------------------------|-----------------------------|

Q57. Foods of animal origin generally supply greater amounts of iron to the diet than \_\_\_\_\_

- |                              |                           |                             |                       |
|------------------------------|---------------------------|-----------------------------|-----------------------|
| A. are foods of plant origin | B. foods of plant origins | C. do foods of plant origin | D. plant origin foods |
|------------------------------|---------------------------|-----------------------------|-----------------------|

Q58. International cartels \_\_\_\_\_ in the drug and steel industries until the late 1930's.

- |                 |                 |            |             |
|-----------------|-----------------|------------|-------------|
| A. were existed | B. that existed | C. existed | D. existing |
|-----------------|-----------------|------------|-------------|

Q59. A person's blood flows through a pipeline of vessels that, end to end, would stretch more than \_\_\_\_\_ half times around the Earth at the equator.

- |            |              |            |              |
|------------|--------------|------------|--------------|
| A. twice a | B. two and a | C. two and | D. twice and |
|------------|--------------|------------|--------------|

Q60. Recently doctors warned that too much animal fat in the diet can lead to heart disease, \_\_\_\_\_ special types of margarine made with vegetable oils are becoming popular.

- |            |       |              |           |
|------------|-------|--------------|-----------|
| A. Because | B. so | C. and since | D. except |
|------------|-------|--------------|-----------|

Q61. A reagent is any chemical that reacts in a predictable way \_\_\_\_\_ with other chemicals.

- |               |                  |             |             |
|---------------|------------------|-------------|-------------|
| A. when mixed | B. when is mixed | C. it mixed | D. mixed is |
|---------------|------------------|-------------|-------------|

Q62. Biochemists use fireflies to study bioluminescence, \_\_\_\_\_

- |  |   |   |  |
|--|---|---|--|
| A. the heatless light given off by certain plants and animals. | B. certain plants and animals give off the heatless light | C. which certain plants and animals give off the heatless light | D. is the heatless light given off by certain plants and animals |
|--|---|---|--|

Q63. Igneous rock \_\_\_\_\_ from the cooling and solidification of molten matter from the Earth's interior.

- |                     |                    |               |                |
|---------------------|--------------------|---------------|----------------|
| A. being originated | B. have originated | C. originates | D. originating |
|---------------------|--------------------|---------------|----------------|

Q64. Thomas Malthus claimed that disease, war, famine, and \_\_\_\_\_ act as checks on population growth.

- |                      |                     |                       |                    |
|----------------------|---------------------|-----------------------|--------------------|
| A. moral restraining | B. morally restrain | C. by moral restraint | D. moral restraint |
|----------------------|---------------------|-----------------------|--------------------|

Q65. Only rarely \_\_\_\_\_ neuroses leave a person unable to function in everyday situations.

- |        |        |       |         |
|--------|--------|-------|---------|
| A. had | B. are | C. do | D. that |
|--------|--------|-------|---------|

- Q66. Returning to my room, \_\_\_\_\_.
- |                         |                                 |                             |                     |
|-------------------------|---------------------------------|-----------------------------|---------------------|
| A. my watch was missing | B. I found my watch disappeared | C. I found my watch missing | D. the watch missed |
|-------------------------|---------------------------------|-----------------------------|---------------------|
- Q67. The photo periodic response of algae actually depends on the duration of darkness, \_\_\_\_\_.
- |                        |                     |                            |                    |
|------------------------|---------------------|----------------------------|--------------------|
| A. the light is not on | B. and not on light | C. but is not on the light | D. is not on light |
|------------------------|---------------------|----------------------------|--------------------|
- Q68. The influenza virus infects us again and again, \_\_\_\_\_.
- |                                       |   |                              |                               |
|---------------------------------------|---|------------------------------|-------------------------------|
| A. however we fight off it many times | B. no matter how many times we fight it off | C. no matter what many times | D. we fight it off many times |
|---------------------------------------|---|------------------------------|-------------------------------|
- Q69. \_\_\_\_\_, Cameron had thought of both "The Abyss" and "True Lies" as love stories, but he knew he failed to convey that.
- |                              |                           |                        |                    |
|------------------------------|---------------------------|------------------------|--------------------|
| A. Oddly heard, it may sound | B. Maybe it was as odd as | C. Odd as it may sound | D. It may sound as |
|------------------------------|---------------------------|------------------------|--------------------|
